Expected Result

Validation works, user sees the message about field error

C316: Check field "name" for special symbols

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter symbols "!@#\$\$%" in the "name" field 2. Click [continue] button

Expected Result

Validation works, user sees the message about field error

C353: Check the "name" field for spaces

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Click in the "name" field 2. Enter 3 spaces 3. Click [continue] button

Expected Result

Validation works, user sees the message about field error

C341: Check "last name" field with min length of symbol

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter 1 symbol "a" in the " last name" field 2. Click [continue] button

Expected Result

Last name entered in the "last name" field

C342: Check "last name" field with max symbols length (32 symbols)

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter 32 symbols "b" in the "last name" field 2. Click [continue] button

Expected Result

Last name entered in the " last name" field

C343: Check "last name" field from 1 to 32 symbols

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter 10 symbols "c" in the "last name" field 2. Click [continue] button

Expected Result

Last name entered in the "last name" field

C344: Check field "last name" for more than 32 symbols

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter 41 symbols "d" in the "last name" field 2. Click [continue] button

Expected Result

Validation works, user sees the message about field error

C345: Check the "last name" field for entering numbers

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter symbols "12345" in the "last name" field 2. Click [continue] button

Expected Result

Validation works, user sees the message about field error

C346: Check field "last name" for special symbols

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter symbols "!@#\$\$%" in the "last name" field 2. Click [continue] button

Expected Result

Validation works, user sees the message about field error

C356: Check the "last name" field for spaces

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Click in the "last name" field 2. Enter 3 spaces 3. Click [continue] button

Expected Result

Validation works, user sees the message about field error

C350: Check an valid data in the "e-mail" field

Type	Priority	References	Automation Type
Other	High	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter "testworkmaryna@gmail.com" in the "e-mail" field 2. Click [continue] button

Expected Result

E-mail entered in the "e-mail" field

C351: Check an invalid data in the "e-mail" field

Type	Priority	References	Automation Type
Functional	High	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter "test" in the "e-mail" field 2. Click [continue] button

Expected Result

Validation works, user sees the message about field error

C358: Check data in the "phone" field

Type	Priority	References	Automation Type
Other	High	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter "0984172853" in the "phone" field 2. Click [continue] button

Expected Result

phone number entered in the "phone" field

C359: Check the "password" field is less than 4

Type	Priority	References	Automation Type
Functional	High	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter 1 symbol "1" in the "password" field 2. Click [continue] button

Expected Result

Validation works, user sees the message about field error

C361: Check "password" field from 4 to 20 symbols

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter 5 symbol "1" in the "password" field 2. Click [continue] button

Expected Result

Password entered in the "password" field

C362: Check field "password" for more than 20 symbols

Type	Priority	References	Automation Type
Functional	Medium	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter 25 symbol "1" in the "password" field 2. Click [continue] button

Expected Result

Validation works, user sees the message about field error

C363: Check "confirm" in the password field corresponding to the "password" field (manually)

Type	Priority	References	Automation Type
Functional	High	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter 5 symbol "1" in the "password" field 2. Enter 5 symbol "1" in the "confirm" field 3. Click [continue] button

Expected Result

Password entered in the "confirm" field

C364: Check "confirm" in the password field corresponding to the "password" field (copy paste)

Type	Priority	References	Automation Type
Functional	High	None	None

Preconditions

1. Open to <https://french-shop.com.ua/> 2. Click the [account] button in the header 3. Click the [continue] button 4. After verification, delete user data

Steps

1. Enter 5 symbol "1" in the "password" field 2. Copy the password from the "password" field (Ctrl+C) 3. Click on the "confirm" field and paste the copied password (Ctrl+V)

Expected Result

The copied password is not pasted into the "confirm" field

C365: Check "entering the code from the picture" field corresponding to the picture
